FIRST DESIGNS TO TEST

01	**Fast Learner**	Cheetah
02	**Dam Smart**	Beaver
03	**Well Read**	Owl
04	**Unbothered**	Capybara
05	**Curator of Chaos**	Raccoon
06	**Mane Man**	Lion
07	**Too Many Tabs Open**	Squirrel
08	**Lab Partner**	Labrador
09	**Boundaries Built In**	Armadillo
10	**Quietly Fierce**	Tiger

These are creative sales hypotheses. Test the designs with real orders before deciding which products to scale.

Use your individual files

Choose your file

Every PNG is named with its number, phrase and animal. The Artwork-Index.csv lists native pixel dimensions and the size of the full file at 300 DPI.

Set up your product

Choose the actual product and provider in Printify, upload the PNG, and check the selected print-area requirements. Keep the artwork proportions and use the quality indicator before saving the product draft.

Adult and kids shirts

Use a compact chest placement and adjust the size for the actual garment. Light neutral blanks offer useful contrast with this collection’s dark lettering.

Mugs

Use the selected mug’s template and preview to check design orientation, handle spacing and printable dimensions.

Hats

The included files are print artwork. For embroidered hats, simplify fine details and use the provider’s digitization process. Printify currently specifies text at least 0.25 inch tall and lines at least 0.05 inch thick.

Review the real product

Use the provider’s mockups for your Shopify product listing and inspect a physical sample before launching. These graphics have not been uploaded or published to a store.

Printify source guides: dimensions, image quality, and embroidery preparation.
